NET PROMOTER SCORE

Net Promoter Score, or "NPS" measures the willingness of customers to recommend a company's products or services to others. Scores are given as the difference between the percentage of Promoters to Detractors; Promoters are respondents giving a 9 or 10 score. Passives are respondents giving a 7 or 8 score. Detractors are respondents giving a 0 to 6 score. The highest possible NPS score is 100.
