The CSI Companies Announces Relocation of Corporate Headquarters

CSI Accommodates National Expansion With Modern, New Office

Jacksonville, Fla. – The CSI Companies, a leading national staffing firm, today announced the relocation of its corporate headquarters to a new facility located at 7720 Baymeadows Road East.

As it celebrates its 25th year in business, The CSI Companies will relocate to The Point at Gate Parkway, a stand-alone office building, just 3.8 miles south of its current corporate headquarters located at 9995 Gate Parkway N.

The brand new 54,354 square-foot facility features a horseshoe-shaped layout, a private center courtyard, and an interconnected stairwell with marble and stone finishes. It will feature a state-of-the-art fitness center on the first floor and a café-style lounge among several collaborative spaces around the building. The office space is intentionally designed to foster unity, promote employee wellness, and accommodate the company's continued growth.

CSI's new and ultramodern facility will be home to its specialty divisions: CSI Financial, CSI Healthcare IT, CSI Professional, CSI Tech, and its nonprofit organization CSI Gives Back.

"When thinking about what our new office space needed, everything came back to our people," said Chris Flakus, Chief Operating Officer of The CSI Companies. "Because the design was so important, we hired Connie Turner, Principal of Connie Turner Interiors, to come up with the most creative and efficient ways to design this space to drive culture, growth, and productivity, and to one day serve as CSI's global headquarters."

CSI collaborated with Brad Chrischilles at commercial real estate company [Foundry Commercial](#) to identify a location that could accommodate a workforce that commutes from different parts of the city. Through conducting dozens of surveys, considering multiple areas of town and many office space styles, CSI ultimately selected The Point at Gate Parkway owned by local commercial real estate developer [Ash Properties](#).

"In a time where a lot of companies are tentative to make decisions, I talked almost daily with Chris about creating a space that's cool, fun, and highly amenitized," said Chrischilles, Principal and Jacksonville Director at Foundry Commercial Real Estate. "This space will have it all."
