All About You Adds New Podiatrist to List of Providers

Dr. Daniel Black, a podiatrist in St. Augustine who specializes in wound care, general podiatry and minimally invasive surgery, has joined All About You Feet & Legs Specialist + Vein Care.

Dr. Black uses the newest technologies available to treat all conditions of the foot and ankle, including plantar fasciitis, neuropathy, wound care, fractures, strains and sprains, and reconstructive foot and ankle surgery.

“We’re excited to bring Dr. Black on board at our clinic,” said Dr. Rosana Rodriguez, owner of All About You. “His experience brings new offerings that we can provide our patients as our practice grows.”

With minimally invasive surgery, Dr. Black creates tiny incisions to treat most foot and ankle conditions that require surgery. The procedures occur in the clinic, which decreases the cost, and patients experience a faster recovery.

Dr. Black received a bachelor’s degree from the State University of New York at Albany, followed by his Doctor of Podiatric Medicine degree from the New York College of Podiatric Medicine. He completed a three-year podiatric surgical residency at St. John’s Providence Hospital in Southfield, Mich. There, he received extensive training in foot and ankle surgery, trauma, diabetic foot care, and wound care management.

All About You Feet & Legs Specialist + Vein Care is part of All About You – a medical practice that specializes in podiatry, vein care, wound care and regenerative medicine. Its board-certified providers use state-of-the art equipment to treat patients with problems associated with their feet and legs, as well as wound care and regenerative medical procedures for the entire body.
