

PUBLIC NOTICE

Old Hickory Clay Company, TN0070667, has applied for a NPDES permit to discharge treated wastewater and storm water to an unnamed tributary to Todd Creek. The facility located in Carroll County, McKenzie, TN on Blooming Grove Church Road at latitude 36.113778, longitude -88.603167 proposes to mine ball clay. The application, draft permit, and relevant information are available on the Division's Data Viewer at http://tdec.tn.gov:8080/pls/enf_reports/f?p=9034:34001. For more information contact the Tennessee Division of Water Resources, Mining Section, at 3711 Middlebrook Pike, Knoxville, TN 37921 or telephone (865) 594-6035. Interested parties may request in writing a public hearing on water quality related issues. If there is significant interest, a hearing will be held pursuant to *Rule 0400-40-05-.06 (9) (a)*. Comments on this application will be accepted no later than close of the Division's public notice comment period.
