LETTERS TO THE EDITOR | LETTERS@GALVNEWS.COM

Thank you so much, kind driver

I would like to send a thank you to the driver who stopped the car to talk to me instead of just turning left onto Broadway so I could get a safe place.

The bus left passengers out on the side of the road while the bus driver turned left at the front of the vehicle. I had to walk on the side of the roadway and into the path of traffic merging onto Broadway as there is no sidewalk or cross walk to walk on until Enterprise Rent A Car.

Thank you so much.

It started this vital initiative in 2018 during the annual PALS Gala fundraiser at the Galveston Island Convention Center. Securing sponsors for the program and ensuring that the necessary materials are promoted and that any greed that was anticipated to be generated on Galveston Island — could have a complementary role here, too. We are proud and excited about this, and you can be confident that the program has been made possible by the community's support, and that the effort to keep the community's interest in the convention center continues.

The committee remains confident that the program will continue to be a valuable resource to the participants, and to maintain an environment where our guests could expect the same level of care and professionalism that they have come to expect at the convention center. Therefore, we are asking for your support, and we hope that you can contribute to our continued efforts.

One day the speaker found himself thinking about his life-long challenges with cystic fibrosis, raising over a million dollars for research, and contributing to the lives of people affected by the disease. The words triggered anger inside him and a desire to bring change to the world.

As guys do, some trash talk came to the speaker. "Sorry, but I'm not able to discuss the financial numbers, but I can confirm that we are making real progress and that there will be many more announcements in the future," he said. "We are excited about the potential for this program and we are committed to making a real difference in the lives of people affected by cystic fibrosis."
