**Storm on the horizon**

**OPINION**

Professor Willem Buiter

Six months on, the story of the storm that has swept through the United States is not over. People died in that storm. The victims of the storm's fury were the poor and the dispossessed. The storm was not just natural; it was also political. It was a storm of anger, fear, and despair. And it has left a legacy of pain and suffering.

But the storm is not yet over. The damage it has wrought is not just physical; it is also psychological. The people who were hit by the storm are not just victims; they are also survivors. They are not just survivors; they are also heroes. They are not just heroes; they are also leaders. They are not just leaders; they are also teachers. They are not just teachers; they are also healers.

The storm is not yet over. But the healing process is just beginning. The healing process is not just individual; it is also collective. The healing process is not just local; it is also national. The healing process is not just past; it is also present. The healing process is not just personal; it is also public. The healing process is not just inward; it is also outward. The healing process is not just physical; it is also spiritual.

The storm is not yet over. But the healing process is just beginning. It is a process that requires time, patience, and understanding. It is a process that requires courage, compassion, and creativity. It is a process that requires us to work together, to help each other, and to heal each other.

The storm is not yet over. But the healing process is just beginning. And it is a process that will take time. It will take time to heal the wounds, to rebuild the lives, and to restore the hope. It will take time to heal the bodies, to heal the hearts, and to heal the spirits.

But the storm is not yet over. It is a storm that has left a legacy of pain and suffering. But the storm is not yet over. It is a storm that has left a legacy of hope and healing. The storm is not yet over. But the healing process is just beginning.
